

Erich Fromm's contributions to sociological theory

Walter A. Jensen

If you're a grad student...

- with a desire to understand the 'why' and 'how' some religious communities live in harmony while others wage psychological, economic, and/or physical war upon each other;
- who seek to explore the dialectical relationship between psychology and sociology, on both the theoretical and practical levels; *and/or*
- who wish to comprehend the link — using Dr. Erich Fromm's concept of "social character" — between the "base and superstructure;"

you need to buy this book. Like Dr. Jensen's first two scholarly works — grounded in brevity, clarity, and the most salient citations, *Erich Fromm's contributions to sociological theory* will be a welcome break from the toils of graduate homework.

Erich Fromm's contributions to sociological theory

By Dr. Walter A. Jensen, Ph.D.

Printmill - Kalamazoo, MI
First published in March 2017
ISBN-13: 9780970491947
Hardback: 236 pages
Dimensions: 9.2 x 6.5 x 1.0 inches
Weight: 1.2 pounds

Author: Under the mentorship of Prof. Rudolf J. Siebert (b. 1927), Dr. Jensen earned his Masters in Comparative Religion and, in 2015, his doctorate in Sociology from Western Michigan University. His masters degree gave him a working knowledge of Christianity, Buddhism, and Islam. His doctorate allowed him to specialize in sociological theory, the sociology of religion, the critical theory of the Frankfurt School, and, in particular, the works of Erich Fromm (1900-1980).
