

To understand Islam's, Christianity's, Buddhism's, Hinduism's, and Judaism's influence on the modern world, you need to have more than a familiarity with their sacred texts. In other words, you need a sociological understanding of religion. In *Sociology of religion: A critical primer*, Dr. Jensen offers the latest research — in concise and understandable language — to help you gain a better understanding of your religious tradition. Beginning with classical and modern descriptions of religion, Dr. Jensen then explains the struggle between secular and religious forces. His book ends with a summary of his mentor's critical theory of religion. It is Dr. Jensen's hope that his book will help you understand yourself sociologically.

**Author:** Under the mentorship of Prof. Rudolf J. Siebert (b. 1927), Dr. Jensen earned his Masters in Comparative Religion and, in 2015, his doctorate in Sociology from Western Michigan University. His masters degree gave him a working knowledge of Christianity, Buddhism, and Islam. His doctorate allowed him to specialize in sociological theory, the sociology of religion, the critical theory of the Frankfurt School, and, in particular, the works of Erich Fromm (1900-1980).
